

As part of the Energizing Economies programme, GVE has recently signed a deal to develop a 1MW commercial renewable hy-brid mini-grid project to provide power to the Wuse market in Abuja.

GreenPower Nigeria builds off-grid solar parks and containerized microgrids for banking, healthcare, and government, earning the African Quality Achievement Award 2023.

Less than half of the population of Nigeria has access to a reliable electricity supply. Start-up ICE Commercial Power is working to connect Nigerian SMEs to clean power via solar ...

After 10 years without electricity supply, the Minister of Power, Chief Adebayo Adedunjo yesterday laid the foundation for the Rubochi 900kWp interconnected and the Ikea 100kWp solar ...

"Going forward, the interconnected minigrid technology is the perfect solution for underserved areas and commercial hubs like this market and this is something that we intend to ...

Abuja, Nigeria - Millions in rural Nigeria are finally gaining access to reliable electricity thanks to a surge in innovative solar microgrid projects.

Mini-grids -- small power stations usually supplying rural communities -- are not new. But the drop in solar technology costs over a decade has prompted a growth in clean energy minigrids ...

More than 80 million people in Nigeria, nearly 40% of the population, lack access to electricity. The Energy Sector Management Assistance Program (ESMAP) helped expand such access by ...

EM-ONE is excited to unveil our largest solar microgrid project to date: an advanced solar microgrid with a PV of capacity 3.3 MWp and energy storage capacity of 2 MWh.

Learn how to incorporate microgrids as part of your business strategy. Get tailored services for energy resilience that eliminate upfront costs and capital expenditures. Go all-digital and all-electric for more ...
