

We offer a comprehensive range of energy storage cabinet products and can customize solutions to meet your specific requirements. Please contact us via email or WhatsApp for inquiries.

High-efficiency PV modules manufactured in Armenia and in cooperation with trusted international partners. Solar roofs, facades, carports and shading systems -- energy built into modern architectural ...

Estap's outdoor enclosures are a solutions based project offering: enhanced, robust and solid profile technology, high performance thermal control, a natural ventilation system, anti-vandalism design, ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

Each outdoor photovoltaic telecom energy cabinet is built for harsh outdoor telecom and edge usage, characterized by durability, flexibility, and intelligent control to provide unshakeable power supply.

Our qualified specialists are ready to provide full consultation. After installing the solar meter, we connect the solar power plant to the distribution network.

Designed for long-term outdoor operation, the new 60 kWh system features an IP55-rated enclosure, ensuring strong protection against dust, rain, and harsh environmental conditions.

Experience the future of energy storage with the High Voltage All-In-One Hybrid ESS solution, and unlock unparalleled efficiency, safety, and reliability for your energy management requirements.

Looking for an ODM BESS energy storage system? Our all-in-one outdoor cabinet (50-100kWh) features an IP55 design, LFP cells, and easy expansion for C& I applications.

Whether you're a homeowner, business, or industrial player, understanding Armenia photovoltaic power generation energy storage price lists is critical for budgeting and ROI calculations.
