

Australian Solar Container 50kW Price Quote

How much does a 50kw Solar System cost in Australia?

For a more exact figure, contact our specialists for a free quote. For commercial 50kW solar systems in Australia you will be looking at starting prices of \$45,000 to \$50,000 after rebate, excluding GST. For higher quality components from top tier manufacturers with highly efficient inverters the prices will start from \$55,000.

How much does a commercial solar system cost in Australia?

Solar Choice has been tracking the cost of commercial solar systems in Australia since 2014, publishing average figures each month in our Commercial Solar Price Index. Based on this data we can see the average cost of a 50kW system as of August 2024 is \$50,480 including the STC rebate and GST.

How long does a 50kw Solar System last in Australia?

Most 50kW solar systems in Australia have an average payback period of 4 years. However, depending on your location and energy consumption patterns, the system may pay back in as short as 3 years, or extend to around 5 years. The more energy you consume from your 50kW solar system, the faster it will pay itself back.

How much does a 50kw Solar System cost?

Based on this data we can see the average cost of a 50kW system as of August 2024 is \$50,480 including the STC rebate and GST. Noting that prices will vary depending on which solar equipment and installers are selected and whether there are any additional costs required (such as crane hire, switchboard upgrades, and long cable runs).
