

Bangkok's hot climate and abundant skyscrapers create the setting for smart glass, with substantial savings on energy costs among its many benefits. The capital of Thailand is home to some of the world's most thrilling ...

Backed by ECOHOPE New Energy Group, we offer fast local delivery from our 3,000 m² warehouse in Bangkok and reliable technical support. With extensive experience in global clean energy deployment, we empower ...

Bangkok Solar Co.,Ltd. was established in May 2003 as the first Amorphous Silicon (a-Si) Photovoltaic Modules Manufacturer in Thailand and granted ISO 9001-2000 Quality Certificate in March 2005.

Anti-reflective, high transparency, low iron-tempered glass with enhanced stiffness and impact resistance. IP67 rated junction box provides complete protection against environmental particles and low pressure water jets.

PV modules are produced by using monolithically integrated technology that encapsulated with EVA (Ethylene Vinyl Acetate) and glass-laminated to protect solar cells from moisture for their lifetime.

Bangkok Solar Co., Ltd. is the Thailand's first amorphous silicon (a-Si) Photovoltaic modules manufacturing plant, established in May 2003 with 500 Millions Baht Registered Capital as a Thai-Hungarians joint-venture.

Power Performance N-Monocrystalline silicon with silicon nitride layers for higher reliability. N-TYPE Technology M10. Better light trapping with multi busbar decreasing resistance and power loss. SMBB Technology. ...

The company specializes in providing high-quality solar energy systems in Thailand, utilizing advanced German technology for the design and installation of glass-glass solar panels.
