

What is a macro base station?

This outdoor macro base station supports both GSM-R and LTE -- the ideal solution for railways that want to prepare for evolution to an LTE broadband network.

What is a 4G & 5G LTE base station?

Covering all common 4G and 5G LTE bands, the base stations feature software-defined radio, allowing great flexibility of operation and future upgrade paths. The CableFree Advanced 4G and 5G LTE SDR (software-defined radio) Small Cell Base Station - Outdoor Version - is suitable for a wide variety of applications.

How many RF modules are in a base station cabinet?

The base station cabinet contains as many as six RF modules. These multicarrier modules support both Huawei's GSM-R 5.0 and the company's enterprise LTE (eLTE). Use of this multi-radio base station (and similar indoor base stations) maximizes versatility while minimizing site deployment costs.

Why are Trimble RTK base stations so popular?

Trimble RTK base stations command a premium price compared to standard surveying equipment, reflecting their superior engineering, multi-frequency GNSS capabilities, and real-time correction accuracy.
