

Community solar power generation subsidy application

Community solar, also known as Net Energy Billing (NEB), is designed to promote the expansion of solar production in Maine. Eligible solar projects receive credit for each kWh of electricity they generate.

Community solar participants can be credited through net metering or alternative arrangements such as value of solar tariffs; group billing; or joint ownership. Eligibility depends on ...

If you want to power your home with clean energy and lower your electricity bills, but live in an apartment or multifamily home, don't own your roof, or your roof isn't suitable for a solar energy ...

CSS programs can expand access to solar power for renters, those with shaded roofs, and those who are unable to install a solar system on their home or business for financial or other reasons.

The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy efficiency improvements.

Discover Baltimore Gas and Electric's Community Solar program, offering renewable energy options for both residential and business customers.

This webpage provides information for each project that has been provided solar capacity in the Pilot Program. This information has been provided by the Subscriber Organizations and is updated at ...

Learn how to link your accounts or access more accounts. The SOMAH program provides financial incentives for installing photovoltaic (PV) energy systems on multifamily affordable housing. To learn ...

Examples from The Field Reaching Communities and Addressing Consumer Protections Roles and Responsibilities Getting Started State and local governments should consider these steps and best practices during the design, approval, and management of a CSS program: 1. Determine if the program can be implemented under the current legislative and regulatory framework for the specific utility, market, and location. 2. Engage with key stakeholders to inform the development of a ... See more on epa.gov.
