

With an excellent reputation amongst solar companies in Dubai, UAE, we specialize in developing a range of cutting-edge solar technologies that cater to the unique needs of clients in the GCC region.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

We are experts in the design and installation of solar panels, battery storage and electric car charging systems and have a proven track record for delivering green energy results for businesses looking ...

With an advanced inverter supporting 3 MPPTs and 220/380V or 230/400V AC output, this system offers seamless solar self-consumption, battery backup, and diesel generator compatibility. The battery ...

Engineered for outdoor installations, the L3 HVR-60KWH-60K boasts an IP55 rating, ensuring reliable performance in various environmental conditions. Its scalable design supports up to 6 inverters and ...

The 60KWH capacity of the battery pack allows for extended energy storage, providing a reliable power supply even during periods of low solar energy generation or during peak electricity demand.

Our lithium-ion BESS and DC-coupled battery systems provide seamless energy storage for Dubai's solar homes. DEWA-compliant designs ensure reliability and efficiency.

Break free from grid dependency with our comprehensive off-grid solar solutions. Perfect for remote locations, backup power, and complete energy independence across the UAE.

With our innovative solutions for Solar panel installation and maintenance, see why customers like Dubai Municipality and ADNOC trust OffGrid Solutions with their solar projects.

Standalone solar system provides a residential or a business owner with a reliable supply of power during the daytime that can be stored in battery banks or combined with existing diesel generators.
