

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

Our rack-mounted and stackable home storage systems provide added flexibility, allowing for customization to fit various living spaces and energy requirements.

Using our state-of-the-art production facilities, our customers can choose from a comprehensive list of standard generator sets or work with our engineering and manufacturing teams to build an enclosure ...

Founded in May 2015, EK Solar Energy is a global leading technology innovation company in the field of energy storage systems. It is committed to providing customers with optimal energy storage system ...

We design and build customized energy storage container and cabinet solutions based on the specific demands of our clients, guaranteeing the seamless and dependable operation of the entire system.

As a leading fuel tank and enclosure manufacturer in the power generation industry, the Power Products division of EK has become the gold standard in quality, turn-around time, and customization for ...

EK Power Products division specializes in the design and build of weatherproof and sound attenuated, custom power generator enclosures.

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios, providing 10-50kWh multiple capacity options (models: EK-Micro-10 ...
