These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Norway with 150 other countries.

Why are electricity prices so high in Norway?

In Norway, electricity prices have been a hot topic of discussion due to their higher-than-average costs compared to other European countries. The country's abundant use of hydropower, combined with taxes and regulations aimed at promoting sustainable energy, contribute to the high prices.

Does Norway have a tax on electricity?

All counties in Norway have the same tax rate for the consumption of electricity, apart from some parts of Troms and the whole of Finnmark, which are exempt. The Enova tax was 1 %/kWh in 2021 and is the same for all households throughout the country. VAT is added after electricity price, grid rent and other taxes have been added.
