

It is designed for ease of use, simple maintenance, and maximum operational uptime, making it a preferred choice for a wide range of AC 380V distribution networks.

Rockwill Electric strives to bring our customers the latest technology and competitive power system and best service for transmission and distribution line.

If a product is to be used in mainland Europe or Irish Republic a 380V AC rated device is ideal, but either 380V AC or 400V AC products can be used with confidence.

CAHORS has a wide range of enclosures suited to your various network and connection configurations, and the modular versions are configurable to connection architectures.

Discover GGD Type Low Voltage Fixed Switchgear by Chennuo Electric, offering reliable and efficient power distribution for 380V systems. Ideal for industrial plants, it features flexible configurations and ...

Our company is a professional manufacturer of power distribution cabinets, high or low voltage switch equipment (GGD, GCS), cable bridge rack, meter cabinet, control cabinet and so on.

The SOETECK Utility Power Distribution Cabinet designed for power systems up to 4000A and voltage levels of 380V (400V) to 600V provides a robust solution for industries such as power generation, ...

The GGD 380V Low Voltage Switchgear is designed for reliable energy conversion, distribution, and control in AC 50Hz power systems with a rated voltage of 380V and current up to 3150A. It is widely ...

Discover 380V switch cabinets with CE certification, stainless steel construction, and overload protection for industrial power distribution. Ideal for outdoor & indoor electrical systems.

Max. load capacity: 38 kg Number of height units: 15 U Select variants Item no. PRO-4282GR.G1S2 19" Network Cabinet PRO, 800x1200, RAL7035, Rear Door 2-Part with turning handle Color: grey Depth: ...
