

The company is a investment, development and management services provider which focuses on development of domestic and international wind power, solar power and other new energies projects.

That's essentially what the Haixi Energy Storage Project is doing in China's Qinghai Province. As the world races toward carbon neutrality, this megawatt-scale battery marvel isn't just ...

Customer project of a solar power plant in China, which was designed using the RFEM program by Dlubal Software.

Today, John Cockerill is proud to be trusted by SEPCOIII for the design and supply of one of its key equipment for their first solar tower in China and intends to be a solid partner in CSP for the many ...

It is the first solar thermal power generation project in the national demonstration project of multi-energy complementary integration and optimization. The CSP plant uses binary molten salt as ...

Qinghai Haixi Offgrid Hydrogen Plant solar farm is an announced solar photovoltaic (PV) farm in Haixi AP, Qinghai, China.

This page provides information on LuNeng Haixi - 50MW Tower CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration.

HYXI offers products such as photovoltaic inverters, battery energy storage systems, and smart energy platforms.

This project combined CSP with wind power and solar PV, along with thermal energy storage, demonstrates the potential for creating balanced and reliable renewable energy systems.

Golmud CPV Solar Park is a 138 MW p (~110 MW AC) concentrator photovoltaics power station located near Golmud City in Haixi Prefecture, Qinghai Province, China.
