

In cities like Lagos and Abuja, microgrids are gaining traction among gated communities, tech hubs, and industrial parks. These localized energy systems offer an efficient and environmentally...

Abuja, 06 February 2025 - The United Nations Development Programme (UNDP), in collaboration with the Small and Medium Enterprises Development Agency of Nigeria (SMEDAN), launched a 120KVA ...

More than 80 million people in Nigeria, nearly 40% of the population, lack access to electricity. The Energy Sector Management Assistance Program (ESMAP) helped expand such access by ...

We design, finance and commission solar mini-grids, hybrid microgrids and industrial-scale power systems, integrating on- and off-grid assets for maximum uptime and lowest total cost of ownership.

With an unstable grid leading to heavy reliance on diesel backup generators, the UN House Abuja faces high operational costs and carbon emissions. EM-ONE's innovative microgrid will ...

The partnership between FMIST and Entrust Microgrid aims to create a new industry and market for battery energy storage systems (BESS) and solar photovoltaic (PV) systems in Nigeria, ...

Less than half of the population of Nigeria has access to a reliable electricity supply. Start-up ICE Commercial Power is working to connect Nigerian SMEs to clean power via solar ...

Industrial clusters in Aba, Sagamu, and Kaduna now prioritize embedded power and off-grid solutions due to chronic instability from the national grid.

Small, well-organized interventions can unlock market logjams, attract large-scale finance, and generate livelihoods while cutting emissions.
