

Intelligent outdoor cabinet for power substations IP54 type

Combines LFP batteries, PCS, EMS, BMS, power distribution, fire protection, and cooling systems in one all-weather unit.

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain.

Durable outdoor switch box with intelligent opening/closing mechanism. Ideal for industrial and utility applications. Weather-resistant metal construction.

JP series outdoor comprehensive distribution box is an outdoor comprehensive distribution device integrating metering, outgoing line and reactive power compensation.

Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems ...

The RCAB-OD-4535 is an outdoor cabinet system for active and passive equipment that provides maximum protection of customer's equipment against vandalism and extreme weather conditions.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Operating from a state-of-the-art 8000 square meter manufacturing facility equipped with a comprehensive sheet metal production line, Zhuwei stands out for its unwavering commitment to ...

Transform your power generation capabilities through decentralization, decarbonization, and digitalization, all designed to reduce your Levelized Cost of Electricity (LCOE).

Built from galvanized or stainless steel materials, the cabinet achieves IP54 to IP65 ingress protection, effectively isolating internal power components from moisture, dust, and corrosion.
