

Historically, the average for Jordan from 1980 to 2023 is 10.06 billion kilowatthours. The minimum value, 1 billion kilowatthours, was reached in 1980 while the maximum of 22.56 billion kilowatthours was ...

Jordan's electricity mix includes 73% Gas, 15% Solar and 8% Wind. Low-carbon generation reached a record high in 2022.

Jordan's electricity sector is structured around three main stages: generation, transmission, and distribution. Electricity generation is primarily carried out by the Central Electricity Generating ...

Thermal power plants generate electricity by harnessing the heat of burning fuels or nuclear reactions - during which up to half of their energy content is lost. Renewable power sources generate electricity ...

AMMAN -- Electricity generated from natural gas in Jordan dropped to 58 per cent in 2024, compared with 61 per cent in 2023, while renewable energy's share rose slightly to 26.9 per ...

Work has continued to strengthen and develop the Jordanian electrical system, enabling it to handle increased electrical loads and integrate new conventional and renewable electric power generation ...

In this paper, the status of the electricity supply system and renewable energy resources in Jordan are discussed.

Electricity Production in Jordan reached 22,458 GWh in Dec 2024, compared with 21,206 GWh in the previous year. See the table below for more data. Explore the most complete set of 6.6 million time ...

Natural gas is increasingly being used to fulfill the country's domestic energy needs, especially with regard to electricity generation. Jordan was estimated to have only modest natural gas reserves (about 6 billion cubic meters in 2002), but new estimates suggest a much higher total. In 2003 the country produced and consumed an estimated 390 million cubic meters of natural gas. The prim...

Gen... Ren...

- Jordan's Energy Supply & Demand: Jordan relies heavily on gas (59%) and renewables (25%) for electricity, with rapid energy demand growth. It has significant oil shale and solar resources, though ...
