

NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, bringing ...

The Kenya Electricity Generating Company (KenGen) has unveiled its first Battery Energy Storage System (BESS) at its Nairobi headquarters, a move aimed at powering its modular data ...

The Kenya Electricity Generating Company is piloting use of a Battery Energy Storage System for uninterrupted renewable power, marking a new frontier in Kenya's green energy strategy.

BESS offers numerous benefits including improved grid stability, cost savings, enhanced energy independence, and seamless backup during outages. KenGen's BESS initiative underscores ...

The Kenya Electricity Generating Company PLC (KenGen) has announced plans to implement a Battery Energy Storage System (BESS) as part of the Kenya Green and Resilient ...

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising electricity demand.

This BESS is part of KenGen's Good to Great (G2G) 2034 strategy which targets to add 500MWh of energy storage capacity over the next 10 years to create a more sustainable, digitally resilient future for ...

The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its modular data centre in Nairobi.

Discover how Kenya's energy storage battery sector is revolutionizing renewable energy adoption and addressing power challenges. This article explores key applications, market trends, and success stories ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.
