

YUNASKO is a leading startup in developing supercapacitors (SCs) and their hybrids with Li-ion batteries operating in Ukraine - research team and design bureau in Kyiv and pilot production site in Western Ukraine.

Explore the top 7 supercapacitor manufacturers that are leading the way in energy storage innovation. Discover industry leaders, cutting-edge technologies, and their global impact.

This article profiles the top 10 global supercapacitor manufacturers providing state of the art ultracapacitor cells and modules catering to varying energy, power density and form factor ...

Established in 1972 and headquartered in Fountain Inn, Greenville, South Carolina, USA, AVX operates as a subsidiary of Kyocera Electronics Corporation and has become a key player in ...

Yunasko is a funded company based in Kyiv (Ukraine), founded in 2010. It operates as a Developers of ultracapacitors for energy storage. Yunasko has raised an undisclosed amount in funding. The company has ...

Graduated from T. Shevchenko Kyiv National University. Background in Analytical Chemistry and Electrochemistry, 30 year experience in supercapacitor R& D, over 70 scientific papers, co-inventor of over 20 ...

What is a Super Capacitor? A super capacitor, also known as an ultracapacitor, is an electrochemical energy storage device that offers rapid charge-discharge cycles, high power density, and a ...

Yunasko is located in Kyiv, Kyyiv, Ukraine. Who are Yunasko's competitors? Alternatives and possible competitors to Yunasko may include Factorial Energy, ProLogium Technology, and Truewin. Yunasko ...

We have tested all the leading suppliers on the market and are convinced that Skeleton Technologies has by far the best offer. The lowest internal resistance (ESR) and highest efficiency levels of Skeleton's ultracapacitors ...
