

The Portuguese government plans to invest up to 400 million euros (\$466 million) to improve grid management and boost battery storage following a massive blackout across Spain and Portugal in...

DGEG technicians say the mechanism could unlock "well above 500 MW" of new storage by the end of 2025, pushing the country towards the 2 GW storage target in the PNEC 2030 roadmap.

Under this PRR scheme, 41 projects were approved, totalling around 500 MW of new storage capacity and EUR 99.75 million in grants. The main beneficiaries include Akuo (80 MW), Iberdrola (80 MW), ...

Portugal need energy storage? From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break record

The 48 battery containers planned at the project, which Hyperion submitted to the DGEG in 2019, would each contain 5,015 kWh of the same Sungrow products. The developer secured grid capacity for ...

These projects include lithium-ion batteries, compressed air energy storage (CAES), and emerging technologies such as green hydrogen and thermal storage.

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025.

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025.

Lisbon: Portugal's Ministry of Energy has announced that it has allocated EUR100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications ...

Lisbon's iconic yellow trams zipping through streets powered entirely by stored solar energy. While we're not quite there yet, the Lisbon Energy Storage Project Bidding process for 2025 could make this vision ...
