

Sunrise Energy Co., Ltd. Solar Panel Series Aquaman Series M10 144 Cells 545-565W. Detailed profile including pictures, certification details and manufacturer PDF.

Our manufacturing expertise helps you choose between M10's proven reliability and G12's maximum power density. We customize panel configurations using N-type cells for enhanced ...

Sunrise M10 cell is mainly used for Aquaman series solar modules. It supports single-sided, double-sided, and all-black customization requirements. The size of M10 cell can be provided according to ...

Our newest 220W BiFacial solar panel is elegant and powerful and uses the latest PERC M10 cell with 10 busbars. The 12V nominal module option works well with PWM as well as MPPT on 12V systems, ...

Sleek, low-profile integrated solar that replaces the roof covering for an improved aesthetic and for simple roof maintenance, now at similar cost to above-roof panels.

M10 TOPCon modules are high-efficiency N-type solar panels that are designed for residential and commercial rooftops. Their bifacial design captures extra reflected sunlight. It ensures durable ...

Multi-bus bar / PERC / Ga Doped / Half cut/ M10 cell / smart soldering. Enhanced mechanical load up to 5400 Pascals of snow load and up to 2400 Pascals of wind load. Hotspot resistant, micro cracking ...

Utilizes the latest M10 size super high efficiency Monocrystalline PERC cells. Half cut design further reduces cell to module (CTM) losses. 3.2mm fully tempered frontside glass for superior hail ...

Enhanced Efficiency and Power Output: The M10 MONO PERC Half Cut Modules deliver higher efficiency levels compared to traditional solar panels. The combination of larger cells, ...
