

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary services to help balance ...

According to Renewable Energy Magazine, energy company Nordic Solar has signed a credit agreement with Danish bank Ringkjøbing Landbobank to bring the energy-storage site to fruition.

Fourteen large battery storage systems (BESS) have come online in Sweden, deploying 211 MW/211 MWh for the region. Developer and optimiser Ingrid Capacity and storage owner ...

Explore the top energy storage investors in the Nordics, featuring names like Equinor and EQT Group, shaping the future of energy.

Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available. By storing excess energy, ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

Battery Energy Storage Systems (BESS) are now stepping into this role - not only as a technological enabler but as one of the most dynamic investment opportunities in the energy sector.

At HST Nordic (559519-9372), we engineer, procure, and construct high-impact renewable energy and industrial projects across Sweden and beyond. As part of a globally recognized industrial group, we ...

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power ...
