

For North Macedonia to achieve its renewable targets, power lithium battery storage isn't optional - it's essential. From solar farms to industrial complexes, these systems provide the flexibility and ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in North ...

BMZ opens North Macedonia factory by May 2025, creating 700 jobs and boosting global market presence with advanced battery production.

Like elsewhere, poor grid connection capacity and the lack of storage are common issues. With its pioneering project in North Macedonia, Fortis Energy could pave the way for battery ...

The global commercial and industrial solar energy storage battery market is experiencing unprecedented growth, with demand increasing by over 400% in the past three years.

BMZ Group, headquartered in Karlstein am Main, develops and manufactures lithium-ion system solutions in the areas of home and industrial storage/green energy as well as e-mobility and ...

The battery storage system is expected to enhance the plant's efficiency by storing excess solar energy and improving grid stability. It is scheduled to begin operation in the second half of 2025.

With the production of home and industrial storage units for photovoltaic systems as well as batteries for electric mobility, BMZ manufactures the heart of the necessary infrastructure for the energy and ...

September 4 (SeeNews) - BMZ North Macedonia, a unit of Germany's battery manufacturer BMZ Group, said on Wednesday it started the construction of a new 65 million euro (\$71.9 million) battery factory ...

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 September.
