OverviewExport/ImportProduction and consumptionTransmissionPriceMode of productionSee alsoFurther readingNorway has imported up to 10% of its electricity production during 2004-2009. According to IEA, in 2015, Norway exports about 15% of its electricity generation and imports about 5%, and the net electricity export was 14.645 TWh. In 2021, exports were 24.7 TWh and imports 7.6 TWh, mostly from Sweden. Norway and Sweden's grids have long been connected across the 1630 km long border. A 1 G...

The majority of Norwegian solar power is building-integrated, and it is not a requirement to obtain a licence pursuant to the Energy Act in a market that is seemingly currently saturated.
