

Off-grid supplier of solar-powered containerized products for islands

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Looking for clean, reliable power for islands or remote areas? GSL ENERGY offers custom island energy storage solutions with solar lithium battery systems. Perfect for island resorts, homes, schools ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites ...

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

The Mobil-Grid™ is the ideal solution for use in isolated areas, for large ground-mounted generators or for parks connected to the grid. For use on isolated sites, storage batteries can be supplied in a ...

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel. Get your free quote today!

Learn about our off-grid solar projects in the Pacific Islands. From Fiji to Hawaii, we deliver top-tier solar systems for remote and sustainable energy solutions.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
