

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.
