

Smart Solar-Powered Containerized Containers for Drilling Sites

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power ...

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

The Smart Green DC Container offers a sustainable and efficient energy solution for various applications. With advanced features like solar panels and lithium battery storage, it provides reliable ...

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it"s needed. Built for multi-industry use, our systems replace ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Our Hybrid Solar Container offers unmatched scalability and precision for operational needs, making it an ideal choice for army bases, disaster relief zones, and remote off-grid requirements. ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

The MOBIPOWER-14K containerized off-grid solar generator delivers hybrid solar, BESS and methanol fuel-cell power for mining, camps and industrial sites in Canada & USA.
