

Search for a weather file!

Welcome to the Global Solar Atlas. Start exploring solar potential by clicking on the map. Select sites, draw rectangles or polygons by clicking the respective map controls. Calculate energy production for ...

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 8 locations across South Sudan. This analysis provides insights into each city/location's potential for harnessing ...

BOQ & TECHNICAL DRAWINGS FOR DRILLING OF THREE (3) BOREHOLES LAINYA AND YEI TOWN PAYAM, YEI RIVER COUNTY, CENTRAL EQUATORIA STATE, SOUTH SUDAN. ...

Starting with input data related to the selected locations in Sudan, including hourly weather data, economic factors, and type of technology, simulations were performed for a grid ...

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load ...

Discover El Barkal's solar energy solutions tailored for Sudan. We provide comprehensive systems, including consultation, installation, and support, addressing ...

The optimal locations found in Sudan for utilizing solar energy were Wawa, followed by Kutum, Wadi Halfa, Dongola and Al-Goled due to their low costs of electricity, high clearness index ...

Access high-resolution static maps to visualize global solar potential. For site-specific prospecting and bankable project analysis, use our professional solutions.

Explore the solar photovoltaic (PV) potential across 8 locations in South Sudan, from Malakal to Parjok. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to ...
