What is a solar generator?

These FAQs were answered through our independent research and interviews with Aislyn McQueen of the Erie County Department for the Aging, senior PR manager at Anker Adam Weissman, and PR manager and spokesperson for Jackery Rachel Stotts. A solar generator is a portable power station that can be recharged using solar panels.

Can you plug a solar panel into a generator?

Thankfully, most brands provide more flexibility than you might think. Since most solar panels use standard MC4 connectors, you can usually plug them into whatever generator or power station you already own, as long as you have the proper MC4-to-input adapter and stay within your unit's voltage and current limits.
