

Jia Mao provides innovative photovoltaic floor tiles. Our durable, walkable solar panels are perfect for public spaces, patios, and driveways, turning any surface into a power source.

PVFloor provides both energy saving and an aesthetic solution with its innovative energy-generating solar panels used as floor covering. With its durable and efficient structure, PVFloor can be used in ...

Interested in solar tiles? Our comprehensive buying guide covers everything you need to know, from installation to maintenance and cost savings.

Introducing Pavegen Solar+, the first kinetic and solar energy floor tile.

Unlike traditional PV panels that occupy valuable rooftop space, our PV floor offer a dual purpose, allowing building owners to harness solar energy without sacrificing amenity space.

Onyx Solar revolutionizes sustainability with an advanced photovoltaic walkable floor, seamlessly integrating renewable energy into functional surfaces.

Each model features specific power outputs, efficiency rates, dimensions, and temperature coefficients, suitable for different installation needs and operating conditions, ensuring versatility in solar energy ...

Photovoltaic floor tiles combine solar energy generation with durable paving materials, offering sustainable energy solutions for urban spaces, public areas, and smart cities, while reducing ...

Our Solar Walkway is a smart data floor designed to promote renewable energy in the public domain. The floor is installed in urban environments to make the production of renewable energy visible.
