

## **Solar power generation has no subsidies now**

Here's the truth: solar energy is the most cost-effective form of new electricity generation in the United States, even without subsidies. It's fast to deploy, requires no fuel, and delivers predictable, American ...

Congressional Republicans passed the One Big, Beautiful Bill, which put the brakes on federal clean energy subsidies by terminating investment and production tax credits for wind and solar...

The government delivered a shock to the renewable energy industry when it took away subsidies for solar and wind as part of the One Big Beautiful Bill Act. It's a shock the industry can...

Not only does solar power receive tax subsidies, but it has also garnered sizable federal loans, particularly during the Obama-Biden administration. Solar plants are touted to operate for around 25 years -- ...

The two renewable sources have been cheap relative to natural gas-fired power without subsidies for at least a decade. Utility-scale solar today is 84% cheaper than it was 16 years ago; onshore wind costs ...

As we consider the critical reforms in the reconciliation process, I rise today to make the case for why we must eliminate the generous federal subsidies for wind and solar energy, paid for by taxpayers. ...

Agriculture Secretary Brooke Rollins said Monday that the department would be cutting off subsidies for solar power projects on U.S. farmland, asserting that they are making it harder for producers to ...

"We are no longer allowing businesses to use your taxpayer dollars to fund solar projects on prime American farmland, and we will no longer allow solar panels manufactured by foreign adversaries to be ...

U.S. residential solar companies are preparing for a steep drop in business this year after the expiration of a federal tax credit that helped drive more than a decade of rapid growth, prompting...

In the piece below, Jonathan Lesser traces the history of wind and solar subsidies in the US and why every dollar shovelled into the occasional generation of electricity is a dollar wasted.
