

Swiss energy storage container factory operates

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Where is the largest battery energy storage system in Switzerland?

The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's largest.

How did Intilion transport containers from China to Switzerland?

INTILION managed the entire transport chain from China to Switzerland - including shipping, customs clearance, and interim storage. Instead of relying on a complex road transport solution, INTILION chose an alternative approach: all 16 containers were transported together by inland vessel along the Rhine, from Rotterdam to Birsfelden.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Funding: \$1.1B Energy Vault SA implements large-scale projects building energy storage systems including gravity-based, battery-based and green hydrogen-based, managed by its ...

Energy Vault has entered the Swiss market this week, announcing multiple battery energy storage systems (BESS) projects and deployments with new partners in the region, while also ...

We are delighted to be taking a significant step in the Swiss energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, we will install one of the largest battery storage ...

Integrating electricity and heat storage into a storage solution increases the reliability of the energy supply. Storage systems also play a key role in decarbonising Switzerland's energy supply. The ewz ...

Which energy storage projects have been commissioned in Switzerland? Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But ...

By Julian Singer On 9 September Energy Vault, the Swiss energy storage company, announced a merger with Novus Capital Corporation II, a special purpose acquisition or "blank check" company ...
