The American Midwest Power Generator Termination Cabinet (GTC) is specifically designed to be connected quickly and easily to a portable (mobile; roll up) generator.

Learn more about Manuals and Technical Documents from Cummins, Inc., an industry leader in reliable power solutions for more than 100 years.

From standard ISO containers to acoustic generator enclosures, our experienced Caterpillar engineers will work with you to design a custom, assembled enclosure for your diesel or gas generator set.

Our generator enclosures, distinguished by their high durability, low noise levels, and robust construction, are tailored to customer specifications, maximizing operational efficiency and safety.

Suitable for indoor or outdoor use, our cabinet maintains its NEMA 3R rating even with the access door open and temporary cables (from the portable generator) connected.

Our soundproof generator cabinets are produced with 4 or 6 doors depending on the size to facilitate the maintenance of the generator. Easy access to the control panel is provided.
