

In notes and bibliography style, Chicago recommends only citing Wikipedia in your footnotes, and leaving it out of your bibliography. Use the short note format if you need to cite the ...

The most common correct use of this template is to identify an article that uses more than one major citation style (e.g., half the citations use ref tags, and half are parenthetical citations).

This wikiHow teaches you how to create a proper citation for a Wikipedia article. The easiest way to do this is by using Wikipedia's built-in citation generator that links to the version of the ...

 Is Wikipedia A Reliable Source?
 Using Wikipedia as a source is generally discouraged in academic writing, and your institution may even have a specific rule against doing so. There is disagreement about whether Wikipedia can be considered a reliable source, but most academics agree that you shouldn't cite it in your writing, for two main reasons: 1. As an online encyclopedia, Wik...

Citation templates provide a uniform, easy way to cite sources. The inclusion of a template here does not necessarily mean that the sources in question are appropriate references; for details, see ...

This Citation Style 1 template is used to create citations for short, stand-alone, offline documents. When citing an article in a periodical, use { {cite journal}}, { {cite magazine}}, or { {cite periodical}}.

Wikipedia merged several formats into Citation Style 1 and Citation Style 2, which are used in citation templates. Nearly any consistent style can be used, except inline parenthetical referencing, so long ...
