

Comparative investigation of performance for off-grid solar pump for further application in agriculture farms:
A case study in Thailand

After years of deep cultivation and exploration in the solar water pump industry, INVT has carefully developed a new solar water pump inverter: SP100 series. SP100 has comprehensively upgraded ...

We are very excited that the village solar powered water pumping system government projects in Lamphun, Thailand have chosen ECCNTECH PB-G3 series Smart Pro solar pump ...

In June 2022, the SI23 series 2.2kW solar water pumping system was successfully installed in a village in Lopburi, Thailand. The project was invested by the local government for ...

Thailand is investing heavily in renewable energy, with solar power playing an essential role in its energy strategy. Solar pump inverters, in particular, are becoming increasingly popular for agriculture, water ...

The ZK SG320 solar water pump system utilizes solar-powered irrigation and water supply equipment for a wide range of applications in agriculture, domestic water, industry and water supply needs in ...

With its core advantages of "easy installation, high protection, and AC-DC complementary input", the INVT SP100 PV Water Pump Inverter accurately meets the scenario requirements of Thai ...

In collaboration with local partner, Solartech engineers team support the system design proposal which one Solartech solar pumping inverter control two 3HP water pumps alternately operation. The system ...

Our solar inverter for AC 220V pumps delivers powerful water flow, high efficiency, and superior durability compared to existing DC 220V pumps can be used without requiring replacements. ...

Delta Develops Solar Water Pump Solution to Support Thailand's Rural Development Bangkok, Thailand, November 2, 2021- Delta Electronics (Thailand) PCL. developed an original solar ...
