

How much does electricity cost in Uganda?

Uganda's power tariffs are set on a quarterly basis, and the average tariff to consumers is \$0.19/kWh (\$0.09/kWh for large industrial users), with the first 15 units of power subsidized. Umeme Co. Ltd. is the largest energy distributor in Uganda, distributing 93% of all electricity in the country.

What percentage of Ugandans have electricity?

In urban areas, 57.2% of Ugandans have access to electricity; however, access drops to 10% in rural areas, and it is only 22.1% nationwide. As of December 2022, Uganda had approximately 3,385 km of transmission lines, which the government aims to increase to 4,354 km by 2025.

What is Uganda's largest hydropower project?

Uganda's largest hydropower project, the 600 MW Karuma Hydro Power Dam, is slated to come fully online by the end of 2023, after over four years of delays. The addition of the Karuma Hydro Power Dam is projected to boost Uganda's total capacity by 44% and leave potentially over 1000 MW of excess power generation capacity.

Why is foreign investment increasing in Uganda?

Overview As the government prioritized increasing Uganda's power production, foreign investment in the sector has increased. The Electricity Regulatory Authority (ERA) estimates that as of December 2022, installed electricity capacity in Uganda was 1,402 megawatts (MW) with demand at 843 MW, leaving a surplus of 559 MW.
