

Why are Ukrainian businesses turning to self-consumption solar PV systems? Following three years of bombardments and damage to its energy infrastructure, Ukrainian businesses are turning to self ...

In 2024, Anern deployed 50 sets of 10.2kW off grid solar power generation systems for residential households in Ukraine. These systems are installed and distributed through authorized local agents, ...

The features of the Rayton system include its modularity and container format. Thanks to modularity, you can precisely select the required capacity of the installation without overpaying for unnecessary ...

Our off-grid shipping container homes offer a unique opportunity to create a self-sufficient, personalized haven designed to fit your needs. From innovative floor plans to green features, discover how you ...

Russia's constant bombing of Ukraine's energy infrastructure has sparked a groundswell of innovation in clean, reliable power, from building microgrids to solar power stations.

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery bank, ...

In Ukraine, where grid disruptions are frequent due to the prevailing situation, this photovoltaic foldable container equipped with energy storage batteries can be rapidly deployed in off-grid conditions.

You know how it goes - your procurement team wants wholesale solar modules at rock-bottom prices, while engineers demand military-grade durability. Last quarter, 37% of commercial solar projects ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

Ready to select a solar container that can actually perform under pressure? Learn about our container solar module solutions or contact us to get a tailored quote for your off-grid energy project.
