

Vatican wind solar and storage power plant

In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the...

As a result of the completion of this project, Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia, and the Democratic Republic of Congo as the eight countries in ...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs.

The Vatican's solar shift is a culmination of a political and spiritual mission years in the making. In 2024, the late Pope Francis issued an apostolic letter ordering the construction of an ...

The agrivoltaic plant will make use of the Holy See's property at Santa Maria di Galeria. Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican ...

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

The solar array generates enough power to supply Vatican Radio and all of Vatican City State's energy needs. The agrivoltaic plant sits on over 1,000 acres of Holy See property at Santa ...

This is pretty interesting as the Vatican joins a growing list of countries using 100% renewable energy. Perhaps even more intriguing is the way the Vatican did it - they used agrivoltaics.
