

Localized manufacturing at Weining Base will help reduce costs and improve the efficiency of module production, helping the development of green energy in Southwest China.

Weining takes Changtong Group, a local manufacturing enterprise in Guizhou, as the "chain owner", and introduces a new energy, Jiangsu Guoqiang, Kehua Digital Energy and other excellent and strong ...

DAS Solar is moving closer to industrializing back-contact (BC) solar cells. ? ? Authorities in Weining, Guizhou have published an EIA disclosure for a 5 GW BC high-efficiency cell project ...

The Weining County filing, dated Sept. 8, identifies the developer as Das Solar New Energy Technology (Weining) Co. and lists a 177,000-square-meter site planned for cell workshops, ...

Das Solar signed a CNY 2 billion (280.7 million) agreement with the Weining authorities in April 2024 for a related n-type cell project.

Chinese module producer DAS Solar is planning a 5GW manufacturing facility focused on producing high-efficiency back contact cells.

Guizhou Weining Yina Shuangying (SPIC) solar farm is an operating solar photovoltaic (PV) farm in Yinan Town, Weining, Bijie, Guizhou, China.

An aerial drone photo taken on July 3, 2025 shows a solar power station for agricultural use in the Yi-Hui-Miao Autonomous County of Weining, southwest China's Guizhou Province.

A recent release from the Weining County government has revealed that solar cell and module manufacturer DAS Solar is entering the back-contact (BC) domain, having submitted plans ...

Jan. 22, 2024 - Phase II of photovoltaic modules has been put into production at the DAS Solar Weining manufacturing base, China, signifying the successful completion of the 2.4 GW N ...
