

What is the market prospect of solar power generation

Explore the future of solar in 2025--key trends, new tech, and policies driving global clean energy growth.

With China implementing major changes to its solar market design this year, a temporary dip in global growth in 2026 appears very likely. Meanwhile, other regions are falling behind, ...

The solar photovoltaic market size crossed USD 323.5 billion in 2025 and is expected to grow at a CAGR of 8.1% from 2026 to 2035, driven by integration of solar PV across agriculture and business ...

This solar market report delivers an in-depth analysis of the market's key characteristics, including size, growth potential, and segmentation. It provides a detailed breakdown of the market across major ...

As a result of new solar projects coming on line this year, we forecast that U.S. solar power generation will grow 75% from 163 billion kilowatthours (kWh) in 2023 to 286 billion kWh in 2025.

However, the expansion of the global solar photovoltaic market faces persistent hurdles. Issues such as low workforce availability, grid integration limitations, and continued support for the fossil fuel sector ...

Globally increasing energy consumption coupled with rising environmental concerns such as greenhouse gas emission is expected to drive the solar power market over the next seven years. ...

Policymakers in some of the world's largest economies are reducing support for solar power generation. Even so, Goldman Sachs Research expects rapid growth in the sector, with global ...

Policymakers in some of the world's largest economies are reducing support for solar power generation. Even so, Goldman Sachs Research expects ...

The Solar Power market in the U.S. is projected to grow significantly, reaching an estimated value of USD 103.96 billion by 2032, driven by the need to combat climate change through ...

o At the end of 2024, solar was the second-largest source of U.S. generation capacity, though still a growing percentage of the U.S. electric generation mix. o In 2024, solar represented ...
