

Where should a locker room be located?

Locker room is one of the most important rooms in the house and determines the prosperity and affluence of the house. While determining the position of the locker room, there are a number of considerations you need to make. According to vastu shastra, locker room should be ideally located in north direction of the house.

Where should a locker be placed?

Locker Placement- While placing the locker in the right direction, make sure that it is about an inch away from the wall. Do not stick it to the wall. Make sure that the locker is about a foot away from the north-west or south-west corner. If the room does not have too much of space, locker or almirah can also be placed in the east direction.

How do you set up a locker room?

Position the benches perpendicular to each locker row for easy access that maintains clear pathways. Plan for one linear foot of bench seating for every three to four lockers. Install adequate lighting throughout the space. Users need bright, even illumination to locate their belongings and navigate safely.

How should a locker room be arranged?

Next, the locker area itself is a focal point in any locker room. Lockers should be arranged in a way that maximizes accessibility while providing enough space for personal belongings. It's common to see lockers grouped together with a bench or seating area in front, allowing users to comfortably sit while changing.
