

Our next-gen ESS delivers certified safety, wide temperature performance (down to -30 °C for sodium-ion), and intelligent EMS for real-world reliability. Reduce lifecycle costs with long-life cells, ...

Xupai lithium-ion batteries are engineered for versatility, efficiency, and reliability across a wide range of energy storage needs. From residential homes to critical industrial systems, these advanced ...

XUPAI 5kWh lithium battery is available in many sizes: optional 5kWh, 10kWh, 15kWh, 20kWh, 25kWh, 30kWh. So whatever power and capacity you need, XUPAI ...

It is one of the few mature enterprises in the industry that master green, long-life, high-energy and production technology of batteries. Xupai originated in 1995 and is headquartered in Changxing, ...

Xupai originated from Zhejiang Changxing Yuquan Battery Factory in 1995 and is headquartered in Changxing, Zhejiang, the hometown of batteries in China.

It delivers power, lithium, energy-storage, communication, UPS, starting, and start-stop solutions with long life, high performance, and eco-friendly design--covering e-bike/e-tricycle packs ...

XUPAI-a long-life battery brand, a well-known supplier of new energy products, is a high-tech enterprise specializing in battery research and development, manufacturing, sales and service.

Xupai LiFePO4 batteries for AGV, forklifts, marine, RV and more--safe, long-life, low-maintenance power built for uptime; IEC 62619 & UN38.3-ready.

Xupai - a long-life battery brand, a well-known new energy product supplier, is a high-tech enterprise specializing in battery research and development, manufacturing, sales, recycling and service.
