

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now account for approximately 35% of all ...

Solar AM LLC actively collects nature's replenishable sources due to Armenia's geographic location. Hence, our company uses innovative technologies to capture and retain energy to modernize the Armenian grid not only ...

The Yerevan Energy Storage Industrial Park isn't just another concrete jungle. It's where Armenia's tech nerds, climate warriors, and business sharks collide over lithium batteries and solar panels.

About EK SOLAR: With 12+ years in renewable energy storage, we've helped 350+ clients across Eastern Europe transition to sustainable power solutions. Our Yerevan-based technical team ensures rapid response ...

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and innovative production line ...

About EK SOLAR: Specializing in solar storage systems since 2015, we've deployed 120+ projects across Armenia. Our turnkey solutions blend German engineering with local adaptability.

We specialize in solar energy systems, solar power stations, home power generation, wall-mounted integrated units, photovoltaic projects, photovoltaic products, solar industry solutions, photovoltaic inverters, energy ...

SunContainer Innovations - Yerevan, the capital of Armenia, is rapidly adopting energy storage solutions to address growing electricity demands and renewable energy integration challenges.

Design and construction of solar power plants, energy audit. Installation and servicing of solar water heaters and solar photovoltaic systems for houses and offices, innovative solutions.
